Compassion in Action: An Interdisciplinary Approach to Pediatric End of Life Care

Speakers:

Vanessa Andrews, MA, CCLS, ATR-BC, LCAT, RPT
Alvin Moyer, MD
Kristen O’Grady, MA, LCAT, MT-BC

All speakers are from Elizabeth Seton Pediatric Center, Yonkers, NY

Learning Objectives

- Identify children who might benefit from a trans-disciplinary approach to end of life care.
- Identify specific challenges to providing effective and timely end of life services in a pediatric population.
- Describe the potential impact of accumulated grief experiences on the family/interdisciplinary team.
- Identify three potential benefits of addressing anticipatory loss with the family/interdisciplinary team.
