Bringing in the Bystander©

Thursday, June 12, 7:30-9 p.m.; Room 106, Kellenberg Hall

Bringing in the Bystander is a nationally known program that was developed based on best practices for violence prevention. The Bystander program focuses on positive social behaviors that create an awareness of relationship violence and potential harmful situations. The program discusses relationship violence and sexual violence in a broad context and provides participants with an understanding of their role in bystander intervention. Additionally, the program will assist students as they develop skills to intervene as a bystander.

The 90 minute program is taught by facilitators trained in the program and its delivery.

This event is offered at no charge. All are welcome!
