

EDUCATIONAL TECHNOLOGY SPECIALIST CERTIFICATION PATHWAY: ADDITIONAL CLASSROOM TEACHING CERTIFICATE (MUST HOLD A VALID CERTIFICATE)

The Educational Technology Specialist Certification Pathway: Additional Classroom Teaching Certificate (Must hold a valid certificate) courses are designed for teachers who hold a valid New York State Teaching Certificate and wish to earn Educational Technology Specialist Certification without having to earn an additional degree. Teachers can take these courses for professional development without going for certification. Candidates for certification must meet certain Content Core requirements and must also meet any non-coursework requirements, such as the New York State Teacher Certification Examinations and fingerprint clearance, as specified. 30 Graduate credit courses are offered in the program to assist teachers in meeting the Content course requirements. New York State may accept up to 6 credits of educational technology course work from previous undergraduate or graduate courses.

Since this is a pathway to certification and does not lead to a degree, you must go to the [NYS Office of Teaching Initiatives](#) web page and file for Educational Technology Specialist certification. Do this as soon as possible - even before you enroll in any courses! You will be notified of anything additional you need to take or any missing requirements.

All of the courses offered during the fall, spring, and summer semesters will be given in a hybrid format with 15 hours of in-class instruction, 15 hours of online work and additional assignments that will require teachers to use strategies and research concepts learned in class and online that would necessitate a minimum of an additional 15 hours to complete satisfactorily, for a total of 45 contact hours of instruction for each 3-credit course.

The courses will be offered at the discounted rate of \$900 per course. The discounted program is limited to those teachers who are not using the credits towards a Molloy College degree and hold a valid New York State Teaching Certificate.

Please note: Your transcripts can only be evaluated online through the [TEACH](#) system, 518.474.3901. It is your responsibility to make sure that all requirements for certification have been met. Your local BOCES does not provide this certification.
