Solution Focused Brief Therapy: A Cutting-Edge Approach in Counseling for SLP
Friday, October 28, 2016; 8:30 a.m.- 4:00 p.m. • Atrium, Molloy Suffolk Center campus

The Communication Sciences and Disorders Department and the Office of Continuing Education at Molloy College are pleased to welcome Beryl T. Adler and Cyndi Stein-Rubin, both of whom will be presenting, "Solution Focused Brief Therapy: A Cutting-Edge Approach in Counseling for SLP," on Friday, October 28, 2016. The program is offered for 0.6 ASHA CEUs (Intermediate level; Professional area). A certificate of completion will be issued at the conclusion of the program.

Description of SFBT
Solution Focused Brief Therapy (SFBT) is an effective and empowering approach in counseling that has been shown to engender hope, motivation, and progress for the speech-language pathologist’s clients and family members. SFBT applies the skills and attitudes needed for a therapist to create an effective and powerful relationship with the client. There is a strong emphasis on deep listening and language. The model may be used diagnostically and therapeutically for clients of all ages.

Program Description
This experiential and interactive course explores the therapeutic relationship and how the SFBT approach is applicable to our profession. The presenters examine clinician fears, attitudes, and strengths that may impact upon the therapeutic relationship. The presenters further provide attitudes and strategies, to alleviate and manage these fears, and to raise clinician confidence. The techniques of SFBT are demonstrated through films and roleplay. Participants have opportunities to practice using this approach.

Presentation Structure
In this experiential presentation on SFBT, we deliver content specific to the skills needed for clinicians to counsel, the method of SFBT and how to apply it, clinical examples based on our years as supervisors and clinicians, video excerpts with actual clients, engage the audience in reflective and interactive exercises, and train the audience on how to apply this technique with their clients and family members.

As a result of this conference the participant will be able to:
1. Identify the characteristics and attitudes needed to form and maintain an effective therapeutic relationship.
2. Recognize how SFBT fits with a person-centered model of service delivery.
3. Apply deep listening and empowering language when engaging with clients and family members.
4. Identify the parts of an SFBT session.

About the Speakers
Beryl Adler has been a practicing Speech-Language Pathologist for over forty years, with extensive experience in language, fluency, articulation, and voice disorders. She worked as Clinical Supervisor and Instructor at Brooklyn College. Beryl Adler has been in private practice since 1978. Ms. Adler’s expertise in working with clients’ and their families led to the development of a graduate course on the therapeutic relationship in communication disorders, which she has taught at Brooklyn College since 1988. She was the first recipient of the Alumni Award in 2010 for her impact on students in the graduate division of the Speech-Language and Hearing Department of Brooklyn College (CUNY). Beryl Adler has lectured on the therapeutic relationship as it applies to a range of allied health professions and classroom teachers throughout the city and Long Island. She coauthored a chapter in the textbook, “A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology” (Cengage Learning, 2012) on counseling. Presently she is again a co-author with Cyndi Stein-Rubin for a new book, “Counseling in Communication Disorders: Facilitating the Therapeutic Relationship,” SLACK Inc. due to print in Fall 2016.

Cyndi Stein-Rubin, is a retired full-time faculty member, lecturer and clinical supervisor in the Department of Speech, Language and Hearing Department Brooklyn College of the City University of New York (CUNY). She is a certified speech/language pathologist, professional life coach, and specialist in the field of human development. Mrs. Stein-Rubin the recipient of the 2009 college-wide Award for Excellence in Teaching and has served on the committee, for the past four years, to select future award winning. She was selected on the basis of excellence in teaching students, clients, and families in the area of communication disorders, and her private practice focuses primarily on adults with disorders of fluency and voice. Cyndi Stein-Rubin delivers interactive and experiential workshops and presentations, drawing from fields such as psychology, counseling, and leadership. She lectures at universities, in the community, as well as internationally. Cyndi Stein-Rubin, is the first author of a co-authored textbook, A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology (Cengage Learning, 2012). Her second book, co-authored by Beryl Adler, “Counseling in Communication Disorders: Facilitating the Therapeutic Relationship,” is due to print in Fall 2016 with SLACK Inc.

Speaker disclosure: the speakers have disclosed that they do not have any financial or any non-financial relationships to disclose.
