CAPS, GOWNS AND ENVIRONMENTAL COMMITMENT

Molloy College has taken another step in making the planet a better place to live. Starting this year all gowns for commencement will be “GreenWeaver”. This is a special gown that is made from plastic bottles. The fabric is comfortably soft.

Molloy is one of the first colleges/universities in the country to use these environmentally friendly gowns. With this year’s graduation class the college will be saving approximately 25,000 plastic bottles from landfills. The yarn from these gowns is made from 100% consumer plastic bottles, thus permanently removing 25,000 plastic bottles of waste from our landfill.

These gowns are softer to the touch and more breathable than the traditional gown. If all the colleges in the country would use this type of gown we would remove 152 million plastic bottles from landfills each year.
