September 19th & 26th Workshops: Lion’s Den
Take a walk through the Lion’s Den with an in-depth workshop on navigating Molloy’s web portal and all the functions, features, and information conveniently accessible through the College’s website.

October 3rd Workshop: DropBox
Have you ever taken pictures with your Smartphone and wanted to share them with your family or friends? Do you want a way to organize all of the Instagram and Facebook photos you have in one location? This session will show you how to publicly share the photos and files and even make your own private folders, too.

**Bring your photos on a flash drive to instantaneously set up your Dropbox account!**

October 17th Workshop: I have a HOLD!
Don’t panic! Get that hold removed. We’ll show you how.

October 24th, November 7th & 14th Workshops: Degree Audit and Registration
A new and very useful tool available to all students on Lion’s Den. A digital status sheet where students can see degree requirements that have been met and those still requiring completion. We’ll show you how to apply this information and use degree audit to complete your online registration.

**students who wish to attend this workshop are encouraged to bring their status sheet**

Questions?
stop by THE STUDENT SOLUTION CENTER, located in the Wilbur Arts Center Lobby
give us a call @ x4400
or simply email us at: studentsolutioncenter@molloy.edu

Reserve your spot! Space is limited!
