One Password

Starting August 4, 2014

Students will now have the ability to manage their own passwords for all of Molloy’s electronic systems. You will need only ONE PASSWORD to access any of Molloy’s services.

- Student Email (Molloy Gmail)
- Molloy Computers (Labs, Lobby, Library, etc.)
- Lions Den
- Course Evaluations
- Collegiate Link
- Lions Card
- WiFi Network
- Self-Service Website

All students MUST first register for Molloy’s Self-Service password tool in order to maintain their own password. There are three simple steps to get started:

1. Go to this link from any computer on or off campus: https://selfservice.molloy.edu/
2. Enter your full Molloy email address (username@lions.molloy.edu) and current WIFI password (id#molloy)
3. Choose two security questions and provide answers.

Once registered, you can go to https://selfservice.molloy.edu/ to change your existing password or reset your forgotten password.

Once your password is changed via this website, the new password automatically changes your student email password (Molloy Gmail).

Note: If you change your email password from within Gmail, this change will not sync with the password for Molloy’s other applications. You MUST use the Self-Service tool.

This tool is for currently enrolled students only.
