

Minors—General Information

Students may elect to complete a minor at Molloy College. A minor is a cluster of related courses completed in addition to a major. **Courses that count toward meeting the student's major program of study or subject requirements for education or a concentration may not also count towards the minor requirements. Courses used to satisfy a minor may not be reused to satisfy another minor with similar or the same courses.** All students, including transfer students, electing to complete a minor must complete at least one-half of the requirements for the minor at Molloy College. A grade of "C" is the lowest acceptable grade for courses used to fulfill the minor requirements.

Minors are not available for students doing the Associate's degree programs.

A minimum of 18 credits is required for a minor. Minors are sponsored by a single department, or are individually designed with the Chairperson of the sponsoring department. Students should declare a minor at the Office of the Registrar with approval of the "Minor" Chairperson. Completion of a minor will appear on the student's transcript. Information and requirements are listed below for available minors, with the sponsoring departments identified.
