

CLASS OF 1959

TEN YEAR REUNION DIRECTORY

June, 1969

Molloy CATHOLIC COLLEGE FOR WOMEN
ROCKVILLE CENTRE, N. Y. 11570

"TO ANY GRADUATE"

Diploma in hand
Eyes on a nebulous never-land
You peer at what you hope will be
But do not see.
You cannot know how soon or late
From out that vague infinity will come your fate.
Beware the paths that wind
Among the self-made blind.
Avoid the wishful deaf who deem absurd
The healing, the inevitable Word.
And know: if you are wisely sensitive
And seek the good, the beautiful, the true
With Him beside to comfort and to guide,
You will completely live
Not partially like some
Who catch a glimpse of sun and stars
Through prison bars.

Elias Lieberman

Dear '59 Alumna:

The Molloy Alumnae Association is more than an organization that raises funds and arranges an annual fashion show and luncheon. It is the culmination of the participation, support and interest in all the areas that the Alumnae Officers have mentioned below.

The new word that is synonymous with alumna is action. Alumnae are supporting their institutions at an all-time high. They are making this commitment financially and intellectually. In short they are taking the lead in working to help their alma mater achieve and sustain high quality.

Please be assured that we at Molloy are very much interested in you, your progress, your views and your criticisms. May you enjoy God's richest blessings at all times.

Sister Mary Celeste, O.P., Ph.D.
President, Molloy College.

Dear Fellow Alumnae:

The tenth anniversary is a good time to reflect on accomplishments, check directions and gather strength for the continuing evolution of an association. Reflect today on your substantial contribution to the college. Wonder in what direction Molloy and the Alumnae Association are going in terms of mutual support and growth.

Feel appreciated for what you have already done; the rest of the alumnae thank you for being the ideal honor alumnae class by:

- * actively and critically participating in the association and attending other college functions
- * generously contributing to the annual fund drive and other financial requests
- * consistently publicizing the potential and kinetic energy of Molloy
- * positively influencing more and more women to make Molloy their Alma Mater
- * making good jobs available to other alumnae
- * gladly sharing post-graduate education and/or experience by returning to the campus in various capacities.

Your initiative and consistency has been, and hopefully will continue to be an example to all. May your celebration this evening give you even more strength to help Molloy become vital to many others. May the best you have done for Molloy in the past be inconsequential when compared to what you will do in the next decade.

Congratulations!

THEN AND NOW

In the year nineteen hundred and fifty-five,
The hopes of our parents came alive.
There's hardly a girl who doesn't remember
That thrilling, auspicious, that happy September.
We started Molloy, it really was fun
Though there were 43, we were only one.
One class, we were treated to orientation and such
And twenty-three credits a semester--how much?
No. Village Avenue provided the Freshman setting
For philosophy and math and all we were getting.
The year flew by, we were wise fools at last.
The year flew by, how fast, how fast.

Second year came we improvised in the gym
We used it for sports, dances, plays, every whim.
We used it for classes, now here's something new
The walls were so thin, we usually heard two.
We started traditions, we planted trees,
We took exams and some hoped for B's.
We took our exams and now everyone cheer.
We managed to pass into Junior Year.

Upperclassmen finally, we got our rings.
We flaunted and flashed them, those red and gold things.
We wore them in parades and when we went to the dances,
And when we studied our majors and minors and changes.
We wore them in May when we got our grade sheet,
Seniors at last, how sweet, how sweet!

Our final year came and in the Fall,
We found we had classrooms in Kellenberg Hall.
Our school was expanding and to our surprise
Our future shone before us, a vast sunrise.
Some would be teachers, though most would wait
And postpone their careers til a later date.
For them marriage and children held the key
To life's enjoyment, to life's mystery.
As we neared our goal, graduation in sight,
We knew how we struggled, how we had to fight.
Would we get our degrees, we could only guess,
We were studying more now and enjoying it less.
Exams behind, the day finally arrived
When the whole world knew thirty-three had survived.
Survived four years at Molloy to become an example,
Another first, a trial package, we'd been Molloy's sample.

Ten years have passed, it's a decade later.
Ten years have elapsed, we're even greater.
We have wisdom and beauty and all of those things
Which only life lived, which only age brings.
