# MOLLOY UNIVERSITY GRADUATE EDUCATION

# EDU 5900 Building School Communities with Social Emotional Learning

(3 credits)

Image from ibo.org

# **Catalogue Description:**

This course provides students with an overview of the research on effective practices for assessing, planning, and supporting mental wellness for youth, their families, schools, and communities. Students will analyze specific strategies for working with diverse communities that include English language learners (ELLs), refugees, and disenfranchised groups. Students will examine evidence-based interventions for supporting mental wellness in learning environments. This course will model interdisciplinary collaboration between the fields of education, counseling, nursing, and other helping professions.

#### **Course Objectives**

#### The students will be able to:

Recognize the characteristics and impact of adverse childhood experience, trauma and mental illness on PK-12 students

Facilitate pedagogical strategies such as metacognition, reflection, and mindfulness to encourage student regulation

Understand behavioral and mental health literacy

Learn about interventions to support social, emotional and behavioral wellness across PK-12

educational environments

Collaborate effectively with families, agencies and the community and foster mentorship models for struggling students.

#### **Required Materials**

All required readings will be posted on Canvas.

#### **Course Requirements**

1.	Capstone Interdisciplinary Project		30%
2.	Capstone Interdisciplinary Presentation		30%
3.	Canvas discussion boards		20%
4.	Final Reflection		10%
5.	Class participation/Attendance		10%
		Total	100%

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

LATE ASSIGNMENTS WILL RESULT IN LOWERING THE GRADE BY 10%.

NOTE: Assignments submitted after the due date will lose 10% for each week that it is late.

#### **Academic Integrity Statement**

The college maintains and affirms a strong policy of academic honesty. Every member of the academic community has a duty neither to cheat nor to condone cheating, fabrication, plagiarism, or facilitation of academic dishonesty. Academic infractions are subject to disciplinary action as described in the Graduate Education catalog.

#### **Accommodations**

Molloy College makes a commitment to providing reasonable accommodations for any student with a documented disability or chronic illness. Like so many things this semester, the need for accommodations and the process for arranging them, may be altered by COVID-19. Students requiring accommodations in order to fully participate in this class are urged to contact Disability Support Services (DSS/STEEP) at <a href="mailto:dss@molloy.edu">dss@molloy.edu</a>, as soon as possible.

# **APA Manuscript Style**

All manuscripts in the field of education are written in the style format of the American Psychological Association.

#### **Attendance Policy**

#### In the case of any absence, please email the professor prior to class.

As professionals in your field, you are expected to attend each class session, to be present when it begins, to come prepared for class, and to participate productively in whole-class and small-group activities. Professionalism and respect are expected in classroom participation. Professional behavior includes turning off and stowing cellphones, refraining from outside conversation or activities (including Internet surfing, text messaging, or preparing for other classes/activities), and being a thoughtful and active listener.

Students are expected to attend classes regularly and punctually. For every absence after the third absence, your grade will be reduced by one-half letter grade for this class; e.g. a B+ become a B. Be advised that attendance will be taken at the beginning of each class. Students who arrive to class late are responsible for reminding the instructor to change the attendance for absent (A) to late (L). Three late class arrivals will officially count as one absence in determining your grade for this class.

It is the accepted practice at Molloy College that faculty take attendance in all courses.

• Students should notify faculty if an absence is necessary as the result of a serious situation.

- Failure to attend class for two (2) consecutive weeks at any point in the semester, without notification of extenuating circumstances, will result in an administrative withdrawal from the course.
- In the case of an online or hybrid course, attendance is considered similarly important. Therefore, failure to participate in academic activities in any given week is considered an absence.
  - Examples of participation in academic activities representing attendance would be
    - participation in a class chat or discussion board on an academic topic,
    - submission of a required assignment,
    - digital interaction with the professor on an academic topic,
    - and completion of a quiz or exam.

Administrative withdrawal results in removal from the course with a grade of "WA" or WF" determined by the point in the term and the academic performance. Students should consult the College catalog for complete details regarding withdrawals and the potential financial implications of a withdrawal.

#### **Class Participation**

Active class participation is expected of all . As future participants, it is expected that you will be interested in the course topics, and that you will share ideas, questions, and observations (from the field, if applicable) in each module. Only those participants who share ideas, comments, and observations in each module and demonstrate their knowledge of the course readings and content, will have the possibility of receiving a 9 or 10 for the class participation score.

#### **Communicating Across the Curriculum:**

Communicating across the curriculum requirements are satisfied by:

•	Module Assignments	20%
•	Interdisciplinary Project	20%
•	Canvas Discussions	15%

#### **Diversity Statement**

#### This course will highlight diversity in the following ways:

- use their knowledge of student diversity to affirm and support full participation and continued study of mathematics/STEM by all students;
- in nearly all discussions about teaching and learning;
- adherence to multi-modality lesson design that complies with learning standards and evidence within the written and presented lesson plan;

- demonstration of lessons that are interdisciplinary and subject-specific in accordance with: lessons, unit plans, and individual presentations, discussions about children with special needs, giftedness, and the evaluation procedures for diverse learners.
- diversity includes gender, culture, ethnicity, socioeconomic background, language, special needs, and mathematical learning styles.

### **E-mail Policy**

It is mandatory that every candidate have a Molloy College e-mail account and check it daily. Information re: the programs as well as communication from course professors utilize this media. This Molloy e-mail account must be activated immediately. If not utilized within 30 days, the account becomes defunct and needs to be reinstated.

#### **Information Literacy Statement**

Information literacy is a set of abilities requiring individuals to "recognize when information is needed and have the ability to locate, evaluate, and use effectively the needed information." Information literacy also is increasingly important in the contemporary environment of rapid technological change and proliferating information resources. Because of the escalating complexity of this environment, individuals are faced with diverse, abundant information choices--in their academic studies, in the workplace, and in their personal lives. Information is available through libraries, community resources, special interest organizations, media, and the Internet--and increasingly, information comes to individuals in unfiltered formats, raising questions about its authenticity, validity, and reliability. In addition, information is available through multiple media, including graphical, aural, and textual, and these pose new challenges for individuals in evaluating and understanding it. The uncertain quality and expanding quantity of information pose large challenges for society. The sheer abundance of information will not in itself create a more informed citizenry without a complementary cluster of abilities necessary to use information effectively.

Information literacy forms the basis for lifelong learning. It is common to all disciplines, to all learning environments, and to all levels of education. It enables learners to master content and extend their investigations, become more self-directed, and assume greater control over their own learning.

An information literate individual is able to:

Determine the extent of information needed;

Access the needed information effectively and efficiently;

Evaluate information and its sources critically;

Incorporate selected information into one's knowledge base;

Use information effectively to accomplish a specific purpose; and

Understand the economic, legal, and social issues surrounding the use of information, and access and use information ethically and legally.

American Library Association (Chicago: American Library Association, 1989).

#### This course will address Information Literacy in the following ways:

#### Recordings

As a student enrolled in courses offered by Molloy College, Rockville Centre, New York, I understand that classes may sometimes be audio or digitally captured for instructional purposes. THESE RECORDINGS ARE INTENDED ONLY FOR EDUCATIONAL PURPOSES AND WILL BE USED ONLY BY THE FACULTY AND STUDENTS ENROLLED IN THE COURSE. PLEASE NOTIFY YOUR INSTRUCTOR BY EMAIL IF YOU DO NOT CONSENT TO PARTICIPATION IN A DIGITAL RECORDING OF YOUR COURSE.

If no student elects to withhold his/her consent prior to \_\_\_\_\_\_\_, digital recording of the class will begin on \_\_\_\_\_\_\_. Any student who has not contacted the professor prior to that date will be deemed to have consented to the recording. You may notify your professor by email at any time if you choose to revoke your consent.

# **Technology Statement**

### This course will highlight technology in the following ways:

- use appropriate technology to support the learning of mathematics including, but not limited to, computers and computer software, smart board, calculators, interactive television, tablets, distance learning, electronic information resources, and a variety of relevant multimedia
- use a variety of print and electronic resources
- submission of Canvas assignment

#### The Respectful Classroom

A major determinant of an effective teacher involves positive dispositions. It is expected that teacher will recognize and contribute to a mutually respectful classroom, both in word and deed. All cell phones and other hand-held or electrical devices <u>MUST</u> be turned off prior to the beginning of each class, put away, and kept off during class. An exception to this rule is if these devices are being used as part of the class. Teacher are not to leave class to receive or send telephone, text, other messages, or to use other devices.

#### **Student Personal Counseling Center**

The Student Personal Counseling Center (SPCC) is a confidential and free service available to all currently enrolled Molloy College students. Through individual counseling, wellness workshops, crisis intervention, support groups, and on-campus trainings, the SPCC aims to enhance wellness, and offer students a more meaningful, and successful college experience. If you are interested in scheduling an appointment, please call 516-323-3484 Monday-Friday from 9am-5pm. The SPCC is located in Public Square 030.

#### **Zoom in the Classroom**

Zoom is a video conferencing tool where instructors and students can meet online at the same time to interact in academic activities such as classroom lectures, student presentations, screen sharing and discussions. Zoom is often utilized with online synchronous courses at Molloy.

#### Minimizing Distractions During Synchronous Online Class

Zoom, or conferencing sessions, can be impacted by many different environmental or situational variables. Here are some strategies and suggestions for minimizing such impact:

- Students should mute their microphone when they are not speaking.
- Consider using virtual backgrounds, which display the participant but mask the area behind them.
- Students should not watch videos, listen to music, or use other applications (other than
  note taking apps) while attending class. Doing so could not only distract the class but
  lead to a degradation in computer performance that may affect the student viewer
  experience.
- Student can use the chat feature in Zoom to communicate with the entire class and or the instructor but should not be participating in one-to-one chats with their peers during class.

### **Student Reminders and Etiquette**

- Just as in an on-campus classroom, it is important to make the best virtual impression during a Zoom meeting.
- You may be viewable, or heard, by the entire class during a Zoom session and should conduct yourself accordingly.
- Classes may be recorded by the Instructor (see the <u>Recordings</u> section of this course outline for further information).
- Student recordings are only permitted if all participants are fully informed that the recording will take place and all participants consent to being recorded. Please refer to the Molloy Student Handbook for more details.
- Dress as if you are in a classroom setting.
- Students are expected to uphold Molloy College's Academic Honor Pledge.
- Abide by the Civility Policy found in the Molloy Student Handbook.

#### **Covid-Related Protocols**

Molloy College has a continuing commitment to providing reasonable accommodations for any student with a documented disability or chronic illness. Like so many things this semester, the need for accommodations and the process for arranging them may be altered by the COVID-19 changes we are experiencing and the safety protocols currently in place. Students who may need accommodations in order to fully participate in this class are urged to contact Disability Support Services (DSS/STEEP) at dss@molloy.edu, as soon as possible.

#### **Disinfecting Protocol**

All members of the Molloy Community are expected to contribute to a healthy environment. Therefore, disinfectants, or chemicals that kill germs on surfaces, will be available in all instructional spaces. Upon arrival in an instructional space, please take a disinfectant wipe, wipe down the desktop and any hard surfaces in your area (keyboard, mouse, etc.). At the conclusion of your time in that space please repeat the process, wiping down surfaces with a fresh wipe. Wipes should be properly disposed in the room receptacle.

#### **Vaccinations and Face Covering**

All students are required to be vaccinated or have an approved exemption or accommodation. All individuals who are exempt from a COVID-19 vaccinations must wear face coverings. If you are required to wear a face covering it must cover both the nose and mouth must be worn at all Molloy locations while indoors. **PLEASE NOTE:** The general face covering policy may change throughout the semester as determined by the evolving nature of the pandemic.

#### Accommodations

Students seeking COVID 19 related accommodations should contact the Center for Access and Disability at access@molloy.edu.

#### **Interdisciplinary Capstone Projects**

As an interdisciplinary team, you have to identify and focus on one challenge in mental wellness and school communities. Examples can be:

- increasing parental involvement
- decreasing negative teacher-student interactions
- chronic absenteeism
- helping students deal with transition from pandemic lifestyle to post-pandemic structures

The team research the parameters around this challenge (what does the scholarship indicate, anecdotal evidence, etc.) and then propose a solution for the issue.
