

**12:30 p.m. - 2:00 p.m.**

**Concurrent Session 2H**

**Caring for the Whole Person: The Importance of Social Determinants of Health in Community Based Palliative Care Support**

• **Hybrid, In person and Virtual**

\* This sessions is approved for SW CE Credit

Description: Social determinants of health are non-medical needs that can have a significant impact on the trajectory of patients' health, such as nutrition, transportation, social or caregiver support, housing, among others. This workshop will discuss the importance of addressing the Social Determinants of Health (SDOH) and their major impact on health outcomes and health equity. Will review evidence based SDOH screening and assessment tools and why Community Based Palliative Care is in the unique position

Learning Objectives:

- Identify 5 social determinants of health
- Understand the role that social determinants play and the impact they have on health outcomes and health equity
- Discuss evidence based SDOH screening and assessment tools

Speakers:

Lori Hardoon, LCSW, Senior Director JASA, Palliative Care Support Services and Maria Lever, LMSW Clinical Supervisor, JASA, Palliative Care Support Services
