

16th Annual Edith Richner Palliative Care Conference
Molloy University
Friday, June 5, 2026
Call for Poster Abstracts

The Edith Richner Palliative Care Conference Planning Committee welcomes individuals to submit a poster abstract for the 16th Annual Conference on June 5, 2026. **Poster abstracts can be submitted until March 1, 2026.**

The Poster Session provides an excellent platform to showcase and celebrate your work among fellow professionals in the palliative care field. If your poster is accepted, attendees at the seminar will have the opportunity to engage with you and gain insights from your research or clinical innovation during the Poster Session. Submissions will be accepted from practitioners and researchers from all palliative care disciplines, including students.

The author(s) must register and attend the conference. The author(s) agree to be stationed at their poster during lunch to interact with conference attendees. There is no oral presentation of the poster.

All abstracts will undergo peer review by the Poster Abstract Review Sub-committee.

Abstracts for a poster are particularly welcome from professionals and students who have no prior experience presenting a talk or a poster at a conference.

Need help on how to develop a successful poster? Please [read this article](#) for more information about how to develop a successful poster.

Members of the Conference Poster Sub-Committee will be available for a brief consultation on your poster if your poster abstract is accepted.

If you are interested in submitting an abstract poster, please complete the form below.

First Name:

Last Name:

Credentials (degrees and licenses):

Organization where you work or attend school:

Email:

Phone:

Co-Authors:
