EMERGENCY NOTIFICATION DEFINITIONS

If an emergency occurs on campus, Public Safety may use the University's Emergency Notification System. The purpose of the system is to disperse vital information as quickly as possible to members of the community, regarding what to do and where to go.

Following directions can save your life.

The following are two commonly used directives that should be followed:

Lock-down: A procedure used by Public Safety to secure all or part of the campus for the purpose of removing people from danger and attempting to prevent any unauthorized person(s) from entering/exiting the campus.

Shelter-in-place: Remain in your area. If you are in a hallway or stairwell, find shelter in the nearest classroom or office.

Remember to remain calm and follow directions given from the Emergency Notification System or emergency responders.

ACTIVE SHOOTER RUN - HIDE - FIGHT

An active shooter is an individual actively engaged in killing or attempting to kill people in a confined and populated area. In most cases, active shooters use firearm(s) and do not follow a pattern or method in their selection of victims.

If you see or hear of an active shooter on campus:

- Immediately call 911 if it is safe to do so. Then call Public Safety at 516.323.3500 if it is safe to do so.
- Remain calm. Avoid screaming, yelling or pointing.
- Silence cell phones.
- Follow instructions on the Emergency Notification System.
- Plan an escape route in your mind.
- Leave your belongings behind.
- Keep your hands visible at all times.

If you are unable to leave your location:

- Hide in an area out of the shooter's view.
- Barricade doors.
- Turn off lights where possible.
- Block windows.

If you confront an active shooter:

- Attempt to incapacitate the shooter by acting with physical aggression (punching and kicking) and hitting the shooter with any available objects.
- Act with physical aggression and/or throw whatever is available at the active shooter.

BOMB THREAT

In the event you receive or overhear a bomb or other mass threat, contact Public Safety immediately at 516.323.3500 if safe to do so, and then call 911.

In the event the threat is received by phone:

- Remain calm.
- Check caller identification and write the number down.
- Keep talking to the caller as long as possible and listen carefully.
- For safety reasons, it is best (when possible) to avoid using a cell phone when reporting the threat. If possible use a landline or one of the interior emergency phones located throughout campus.
- Do not activate any fire alarms.

Attempt to ascertain the following information from the caller:

- Location of the bomb.
- When it will explode.
- What does the bomb look like?
- What type of bomb it is?
- Why the bomb was placed.
- The caller's name.

Listen for the following:

- Background noises for investigative purposes.
- Age, gender, accent (if any) of the caller.

- Contact Public Safety by cell phone at 516.323.3500, or dial ext. 3500 from any Rockville Centre campus phone, or utilize any hallway emergency phone, or any exterior emergency call box. Remember to keep the button pressed when speaking into the emergency call box.
- Give your name, location, the location of the crime and details of the occurrence (i.e. injuries, weapons, number of participants.)

If you are reporting a crime that occurred in the past:

- Remain calm.
- If there is no immediate danger, stay in place and a Public Safety official will respond to your location.
- Reports of any type can be made in public or confidentially.

STALKING

Stalking means engaging in a course of conduct directed at a specific person that would cause a reasonable person to: (1) fear for his or her safety or the safety of others; or (2) suffer substantial emotional distress. For purpose of this definition:

“Course of conduct” means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person’s property.

“Substantial emotional distress” means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling. “Reasonable person” means a person under similar circumstances and with similar identities to the victim.

The University prohibits any member of the Molloy community from stalking other members of the community. When a person is told to discontinue whatever activity they are engaged in, and this activity continues, the person so warned may be expelled, suspended, terminated, and/ or not be permitted to be on University property or at Molloy functions.

Conduct that violates the University policy may also violate New York State laws and subject the respondent to criminal prosecution.

If you believe you may be experiencing any of these situations on campus, contact Public Safety by cell phone at 516.323.3500, or dial ext. 3500 from any Rockville Centre campus phone, or utilize any hallway emergency phone, or any exterior emergency call box. Remember to keep the button pressed when speaking into the emergency call box.

If you have a Family or Criminal Court issued Order of Protection, file a copy with Public Safety. Remember you have an option to renew the document. If you decide to renew, notify Public Safety. All information will remain confidential with the department.
